AWS Certified Solutions Architect - Professional
AWS Community Builder

PROFESSIONAL EXPERIENCE

Splunk — Global AWS Partner Technical Leader

Las Vegas, NV | Jun 2025 – Present

- Contributed to \$1B+ in co-sell revenue in 2025 through the Splunk-AWS strategic partnership.
- Lead the technical alliance between Splunk and AWS to drive innovation and strategic collaboration.
- Partner with AWS and Splunk executives to align strategy and product roadmaps.
- Supported launch of key services including AWS DevOps Agent to enhance customer security solutions.
- Provide technical thought leadership across both organizations.

Amazon Web Services (AWS) — Senior Partner Solutions Architect, Security

Las Vegas, NV | Nov 2023 – Jun 2025

- Co-developed AI-enabled compliance, MDR, and cybersecurity solutions with top GSIs and ISVs.
- Led security initiatives for the Global Business Innovation to Scale organization.
- Built and maintained relationships with security ISVs to strengthen AWS and GSI security offerings.

LaunchDarkly — Sr Solutions Engineer, Partnerships

Las Vegas, NV | Nov 2022 – Nov 2023

- Owned the AWS technical relationship; enabled field teams on LaunchDarkly usage, sales, and co-innovation with AWS.
- Collaborated on partner initiatives to advance the AWS-LaunchDarkly partnership.
- Built expertise across AWS technical solutions and cross-functional collaboration to drive co-innovation outcomes.

Amazon Web Services (AWS) — Senior Partner Solutions Architect

Las Vegas, NV | Jun 2022 – Nov 2022

- Collaborated with customers, partners, and internal teams to drive business outcomes through partner solutions.
- Provided technical guidance and enablement to partners to improve adoption and customer satisfaction.
- Engaged in executive-level strategic conversations with customers and partners during pre-sales.

Amazon Web Services (AWS) — Senior Specialist Solutions Architect, AWS Managed Services

Las Vegas, NV | Apr 2019 – Jun 2022

- Specialized in AWS Managed Services (AMS) to drive operational excellence for customers.
- Served as a technical subject matter expert for AMS and AWS during pre- and post-sales activities.
- Advocated for customers with internal service teams to ensure needs were met.
- Built internal and external training collateral on AMS outcomes for customers and field teams.

Independent DevOps Consultant

Chicago, IL | Jan 2018 – Apr 2019

- Led implementation of CI/CD pipelines for infrastructure and software deployment to increase delivery efficiency.
- Delivered speaking engagements with enterprise customers on AWS services, DevOps, governance, security, and migrations.
- Coached enterprise leaders on DevOps processes and trained teams on cloud and AWS best practices.

Videology, Inc. — Principal DevOps Engineer

Baltimore, MD | Jul 2015 – Jan 2018

- Led a team of 5 engineers across multiple countries to design, optimize, and maintain application stacks on AWS.
- Streamlined operations using Chef, Ansible, Docker, and Atlassian tooling.
- Drove cost management initiatives and platform future-planning strategies.

POLITICO — Senior Systems Engineer

Arlington, VA | Jan 2011 – Jul 2015

- Integrated AWS into new and existing environments to improve operational efficiency.
- Built monitoring and correlation processes using Datadog and Splunk.
- Implemented and maintained CDNs (Akamai, Cloudflare) to improve performance and reliability.
- Led platform planning and design aligned to development and technology goals.

EARLIER CAREER

Govolution, LLC — Lead Systems Engineer (Jan 2007 – Dec 2010)

Blackboard, Inc. — Operations Engineer (May 2006 – Jan 2007)

Crucial Security — Systems Engineer (Oct 2003 – May 2006)

Netconn Solutions — Systems Engineer (Apr 2001 – Oct 2003)

Joliet Junior College — Systems Engineer (Oct 2000 – Apr 2001)

The Spiegel Group — Senior Client/Server Operations Analyst (Jan 2000 – Oct 2000)

US Army — Intelligence Analyst, Fort Bliss, TX (1997 – 2000)
